Tropical Storm Nicholas Operational Alert

Dear Valued ONE Customers,

We have received the following information from the National Weather Service:

Heavy rainfall will impact areas from the upper coast of Texas, across Louisiana, southern Mississippi and far southern Alabama through the middle of the week. Significant rainfall amounts are expected, potentially resulting in areas of life-threatening flash and urban flooding across these areas. Minor to isolated major river flooding is also possible in smaller river basins and urban areas.

Port & Terminals Status

Port Locations	Facility Status	Port Status
Houston	<p>Terminal CLOSED -Due to tropical storm Nicholas, all Port Houston terminals, including the Barbours Cut and Bayport Container Terminals, will remain closed Tuesday.</p> <p>Vessel operations are also suspended until 7 pm Tuesday. They are continuing to monitor the conditions and will communicate as changes occur.</p>	<p>Port Condition Modified - YANKEE 1200/14 -this will prohibit all inbound ship movement</p>

USCG Port Conditions:

- **WHISKEY:** A heightened condition in which gale force winds are possible within 72 hours. All commercial vessels and barges greater than 500 gross tons and all ocean-going barges and their supporting tugs shall report to the Coast Guard Captain of the Port their intention to depart or remain in port. They shall also complete an application and submit it in writing within 24 hours to the Coast Guard COTP to remain in port.
- **X-RAY:** A readiness condition in which gale force winds are possible within 48 hours. Vessels of more than 500 gross tons and ocean-going barges and their supporting tugs should make preparations to leave the port or have received permission from the Coast Guard COTP to remain in port.
- **YANKEE:** A warning condition in which gale force winds are possible within 24 hours. During Port Condition YANKEE all affected ports are under USCG vessel traffic control measures where the captain of the port restricts/controls all vessel activity. All vessels greater than 500 gross tons and ocean-going barges and their supporting tugs with permission to remain in port should make their final mooring arrangements.
- **ZULU:** A dangerous condition in which gale force winds are possible within 12 hours. In Port Condition ZULU the port is closed, and all port operations are suspended except for vessel movements and activities specifically authorized by the Coast Guard COTP

Vessel Status:

- AL4 Dimitra C 008 - In port - Gangs were ordered for 0700 start however no labor was available. Vessel will remain in port
- EC6 ONE Magnificence 062 - ETA 9/16

ONE has requested Demurrage Clock Stops at Houston port facilities for Tuesday 9/14 due to closures, free time will be extended for the date of closure.

Sincerely, Ocean Network Express (North America) Inc.
