Notice of PS6 Terminal Change: International Transport Service (ITS) Long Beach, CA

Dear Valued Customers,

The PS6 service will temporarily shift from the International Transport Service (ITS) terminal in Long Beach to the West Basin Container Terminal (WBCT) in Los Angeles later this month. The last vessel to call at ITS will be the **YM Travel 0012E/0012W arriving on October 24th**.

- **Imports:** ITS will close its gates for import pickup effective end of business on Friday, November 3rd. Please ensure all imports are picked up from the terminal by this time.

After November 3rd, there will be no gate operations at ITS to pick up remaining units.

The terminal is no longer accepting chassis dropoff. Drivers will be expected to bring chassis when picking up imports over the two weeks prior to the gate closure. Please make sure customs clearance and freight release are in order before the deadline of November 3rd.

Please make sure customs clearance and freight release are in order before the deadline (November 3rd).

- **Empties:** ONE has stopped receiving empties at ITS, effective immediately. Empties are being directed to other terminals. Please check returnlocation.com for more details.
- **Exports:** Please ensure to ingate containers by cutoff (October 20th) for the YM Travel. Future PS6 vessels will be calling and receiving exports at WBCT terminal.

Your prompt attention to this terminal transition is greatly appreciated.
