

September 2nd, 2019

Dear Valued ONE Customers,

Hurricane Dorian Update 2

We have received the following information from the National Weather Service, Dorian has nearly stalled from its slight westward motion across the northwestern Bahamas today. A gradual turn to the northwest and eventually north is forecast through Wednesday. Given the track of uncertainty and the increasing size of the hurricane, a Hurricane Warning and Storm Surge Warning remain in effect for a portion of the east Florida coast.

Category 5 Hurricane Dorian is expected to make a major impact on the ports of USEC from 3rd Sept - 7 Sept.

https://www.nhc.noaa.gov/graphics_at5.shtml?start#contents

We expect there will be a huge impact for the vessels presently sailing around USEC, especially calling Savannah and Jacksonville.

Below are the list of vessels which were advised to evacuate from vicinity of the ports and have huge impact/delay.

Service	Vessels	Impacted Port	Original ETA	New ETA (TBC)	Delay based on New ETA
<u>EC1</u>	<u>MOL Modern</u>	<u>SAV</u>	<u>3-Sep</u>	<u>6-Sep</u>	<u>3 Days</u>
<u>EC3</u>	<u>Houston Bridge</u>	<u>JAX</u>	<u>2-Sep</u>	<u>6-Sep</u>	<u>8 Days</u>
<u>EC5</u>	<u>Granville Bridge</u>	<u>SAV</u>	<u>1-Sep</u>	<u>6-Sep</u>	<u>7 Days</u>
<u>AL5</u>	<u>NYK Deneb</u>	<u>SAV</u>	<u>3-Sep</u>	<u>6-Sep</u>	<u>3 Days</u>

Affected at Port / Evacuation from Port				Update :	Update by:
Avoiding action - Pass ahead / Clear port before TS approach				Berth Confirmed	
Avoiding action - Pass behind / Approach port after TS away				Sailed	Update
No action required / Already cleared TS					Remarks

Latest Port Updates:

< Port Action for Sotrm, Hurricane >

Port	Alert	Port operation	Port Closure	Remarks
Boston				
New York				
Norfolk	Port Conditions are currently normal for Sector HR ports.			
Wilmington	Port condition WHISKEY was set effective 1300/01-Sep for Wilmington (NC) & Morehead City. Port Condition X-RAY is expected to be set 2200/02 for Wilmington (NC) & Morehead City. Port Condition YANKEE is expected to be set 2200/03 for Wilmington (NC) & Morehead City. Port Condition ZULU is expected to be set 1000/04-Sep for Wilmington (NC) & Port Condition ZULU is expected to be set 1400/04-Sep for Morehead City.	WHISKEY 01/1300 X-Ray 02/2200 project YANKEE 03/2200 project ZULU 04/1000 project	04/1000 project	
Charleston	Port Condition WHISKEY was set effective 0000/01-Sep and remains for Sector Charleston. Port Condition X-RAY possible to be set 1200/02-Sep and that decision will be announced at the 1015/02-Sep discussion.	WHISKEY 01/0001 X-Ray 02/1200		
Savannah	Port Condition X-RAY was set effective 0800/31 for Savannah. Port Condition YANKEE is possible to be set 2000/02 or sooner pending actual projected path. As of this message, Garden City & Ocean Terminal are expecting normal operations on Tuesday. Brunswick Pilots may take their boats out of service as early as AM/02 until the storm passes.	Whiskey 29/1200 X-Ray 31/0800 YANKEE 02/2000 Project		
Jacksonville	Port Condition X-RAY was set effective 2000/29-Sep and remains for Jacksonville+B39. Port Condition YANKEE will be set effective 0800/02-Sep for Jacksonville. Due to storm-path and storm-speed uncertainties, condition ZULU may not be issued in the typical 12hrs following condition Yankee. Sector JAX will analyze conditions again morning of 02-Sep prior setting a date/time for ZULU. Regardless, as of 0800/02-Sep, no vessels will be permitted to enter port of Jacksonville and/or Fernandina Beach unless specific permission is granted by USCG.	X-Ray 29/2000 YANKEE 02/0800 project		
Miami	Port Condition YANKEE was set effective 1200/31-Aug and remains as of this message for Miami, Miami River, Port Everglades, Port of Palm Beach and Ft Pierce. Port Condition ZULU will be set effective 1800/01-Sep for Miami, Miami River, Port Everglades, Port of Palm Beach and Ft Pierce. Ports will be closed to vessels and shore-side operations. New Orleans				
Houston				

Port Condition Guide:

Whiskey: Set when gale force winds are expected to arrive at the port within 72 hours. Port remains open to all commercial traffic, but oceangoing ships and barges must report their intention to remain in port or depart. If they are departing, they must do so within 12 hours of gale-force winds.

X-Ray: Gale force winds are expected within 48 hours. The rules are similar to port condition Whiskey.

Yankee: Gale force winds predicted within 24 hours. Vessels seeking to depart must arrange immediate departure. Cargo operations must cease with 18 kilometre per hour (kph) winds. Transfer hoses must be disconnected with 22 kph winds. Ships seeking to arrive in port should seek an alternate destination.

Zulu: Gale force winds within 12 hours. The port is closed.

Sincerely,

Ocean Network Express (North America) Inc.
