Used Electric Vehicles with Lithium Battery Prohibition

Dear Valued Customers,

Please note that effective November 1, 2023, for exports out of Canada and the United States, **USED** electric vehicles with lithium batteries will be prohibited until further notice.

•NEW electric vehicles with lithium batteries are not affected by this prohibition. ONE will accept, subject to DG approval under UN3171.

•New or used, hybrid vehicles are not affected by this prohibition. ONE will accept, subject to DG approval under UN3166.

We appreciate your understanding and thank you for choosing ONE.

Sincerely,

Ocean Network Express (North America) Inc.

Quick Reference Table for Electric/Hybrid Vehicles with Lithium Batteries
(US and Canada Export)

New or Used	Electric/Hybrid	UN	Remarks
Used	Electric	3171	Prohibited * Effective Nov 1, 2023
New	Electric	3171	Acceptable subject to DG approval
Used	Hybrid	3166	Acceptable subject to DG approval
New	Hybrid	3166	Acceptable subject to DG approval

note: the above only applies for electric/hybrid vehicles with lithium batteries. For electric/hybrid vehicles without lithium batteries, please follow IMDG code and/or SP961 -2/3/4/5 ([LINK](#)).

*Effective date is based on cargo receipt date.
